RE: MACQUARIE BUILDERS

Riverlee is a Melbourne based, privately owned property group specialising in development and asset ownership across the commercial, residential and retail sectors.

Early in 2019 we negotiated with Macquarie Builders to complete building works to convert the former Tattersalls Hotel in Hobart into a 400-person live music venue including an outdoor dining and beer garden.

The challenge was to design and build the venue ready for the Dark Mofo festival in June of that year with the theme and scope evolving daily.

Macquarie Builders rose to the occasion and the team led by Glen Sheppard, met each challenge with value-based solutions. They were well resourced, committed and professional in their approach to delivering our project.

The project was completed on time and to a high standard. We appreciated the open communication and flexibility in delivery and cost control which furthered the co-operative approach amongst all stakeholders.

Please visit [www.inthehanginggardens.com.au](http://www.inthehanginggardens.com.au)

We had a positive experience working with Macquarie Builders and look forward to continuing the professional relationship in the future and would recommend them to other Clients without hesitation.

Yours Sincerely

ALLISTAIR LINDSAY
